

SOLUTION FOR PATIENTS WITH HIGH OUTPUT

Quality of Life our main asset

SOLUTION FOR PATIENTS WITH HIGH OUTPUT

Your patients are looking for:

- Good sleep at night
- Better recovery and QoL
- Security and freedom

Did you know that patients with a **High Output Stoma** have to empty their pouch **8 to 25 times per 24h?***

Made by nurses – Approved by patients

85.7% of patients feel more secure.**

21/24 patients use it at night & for 93.7% of patients enhanced their **Quality of Life.** **

66.6% enhanced their **autonomy** & for **90%** of patients it provides optimum **freedom of movements!** **

*Slater R. High-output stomas : challenges with a large laparostomy wound. BJN 2011; 21(6):S26-S33
Calculation based on an output from 2L to 8L with an emptying every 300 to 600ml.

** Report on Post Market User Evaluation Flow Collector, July 2014 - Data on file

Making high output patients management easier!
