

Omnican®

INSULIN SYRINGES WITH INTEGRATED NEEDLE

Three-facet bevel

Barely perceptible puncture of skin and tissue due to precise three-facet bevel and special silicone finish.

Integrated thin-wall needle

which allows greater comfort when injecting.

Highly transparent barrel

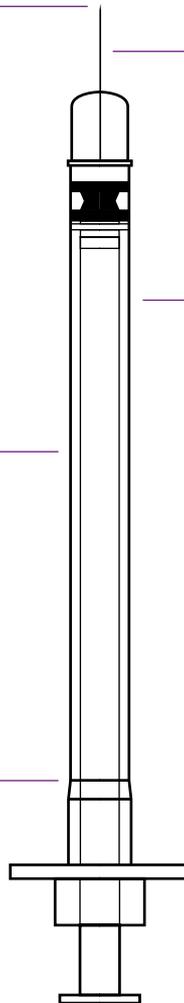

to make sure that air bubbles are easily identified.

High contrast black graduation

for easy reading and exact dosing.

Safe plunger backstop

to prevent unintentional plunger withdrawal and the loss of any liquids.

Omnican® 20 and
Omnican® 40
for injection of
U-40 insulin

Omnican® 50 and
Omnican® 100
for injection of
U-100 insulin

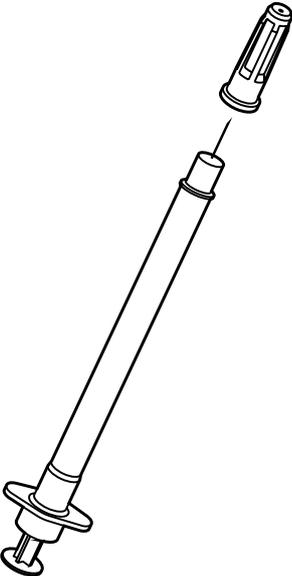

STAY ON THE SAFE SIDE

Insulin syringes are sterile single-use products. Multiple use reduces quality and safety. Discard used insulin syringes into a sharps bin.

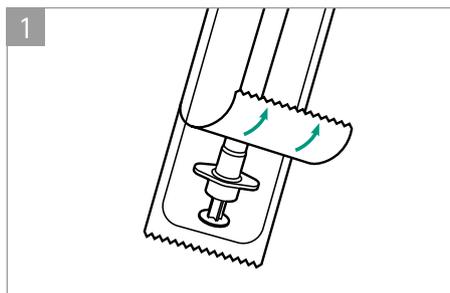

Omnican®

HOW TO USE THE INSULIN SYRINGE

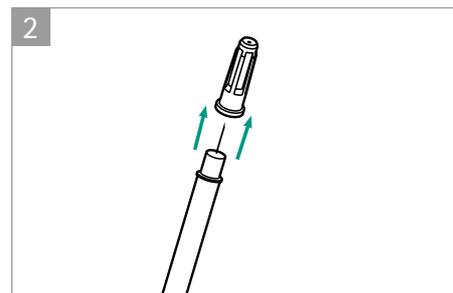

HOME-USE PRODUCTS
Please do not make any decisions of medical relevance before consulting your health care provider.

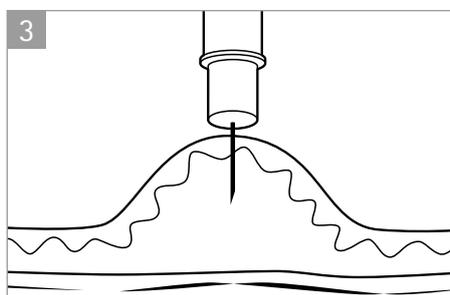

APPLY ASEPTIC TECHNIQUE
Use product in accordance with standard infection control precaution.

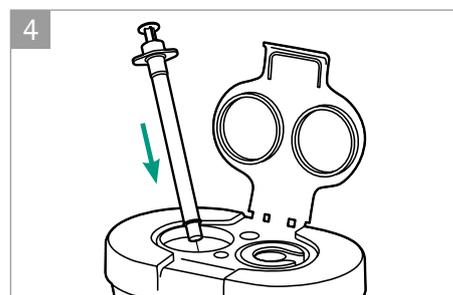

1 Remove syringe from packaging.

2 Remove needle cap without tilting it to avoid exposure to sharp needle point. Prepare the syringe for injection according to established procedures.

3 Perform subcutaneous injection according to established procedures.

4 Immediately dispose of used syringe in an approved sharps container following the standard procedures of your facilities and/or in accordance with the applicable regulations for sharps disposal in your country.

PRODUCT OVERVIEW

Omnican® 20 – 0.5 mL /20 I.U. (Scale grad. 0.5 I.U.)			
DIMENSIONS	CANNULA	SALES UNIT	REF
30 G x 5/16"	0.30 x 8 mm	100 x 1 pc	9161619S

Omnican® 40 – 1.0 mL /40 I.U. (Scale grad. 1.0 I.U.)			
DIMENSIONS	CANNULA	SALES UNIT	REF
30 G x 5/16"	0.30 x 8 mm	100 x 1 pc	9161635S
30 G x 1/2"	0.30 x 12 mm	100 x 1 pc	9161627S

Omnican® 50 – 0.5 mL /50 I.U. (Scale grad. 1.0 I.U.)			
DIMENSIONS	CANNULA	SALES UNIT	REF
30 G x 5/16"	0.30 x 8 mm	100 x 1 pc	9151117S
30 G x 1/2"	0.30 x 12 mm	100 x 1 pc	9151125S

Omnican® 100 – 1.0 mL /100 I.U. (Scale grad. 2.0 I.U.)			
DIMENSIONS	CANNULA	SALES UNIT	REF
30 G x 5/16"	0.30 x 8 mm	100 x 1 pc	9151133S
30 G x 1/2"	0.30 x 12 mm	100 x 1 pc	9151141S

TECHNICAL DATA

Intended use	Single-use insulin syringe with integrated needle for the subcutaneous injection of insulin
Materials	PP, PS, IR, PE, stainless steel, silicone oil Syringes are not made with latex, PVC, DEHP and BPA
Product properties	Safe plunger backstop to prevent unintentional plunger withdrawal Three-facet bevel Thin-wall needle (acc. to EN ISO 9626)
Dead volume	0.30 x 8 mm needle: 0.4 µL 0.30 x 12 mm needle: 0.5 µL
Sterilisation	Ethylene oxide (EO)
Shelf life	5 years
Packaging	Single-blistered 100 pieces in a dispenser box
Product standard	EN ISO 8537
Product classification	Medical Device acc. to MDD 93/42/EEC, class IIa
Quality certificate	EN ISO 13485

All data refer to typical single values and may be subject to alterations.
