

Askina® Scar Repair

SOFT SILICONE DRESSING FOR SCAR MANAGEMENT

Askina® Scar Repair

Soft silicone dressing for scar management

Did you know that there is a **50% risk of having an abnormal scar** ⁽¹⁾ after a surgical procedure?
Did you know that **children and young people are at higher risk of developing hypertrophic scars**?⁽²⁾

IMMATURE, HYPERTROPHIC OR KELOID SCARS, A BIG WORRY FOR PATIENTS

To minimize the risk of abnormal scarring and obtain the best esthetic effect it is important to advise your patient to respect prevention measures from the very start of a remodeling process, as soon as the wound is completely closed.⁽³⁾

E.g.: Hypertrophic and keloid scar after a Caesarean section

Askina® Scar Repair is a soft silicone dressing for scar management

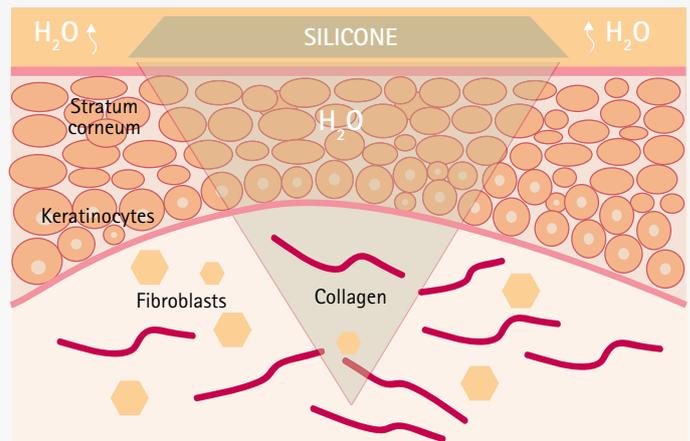

BENEFITS OF SOFT SILICONE SHEETS:

- Prevents the formation of excessive scar tissues ⁽³⁾,
- Reduces redness, itchiness, feeling of tension ⁽⁴⁾,
- Designed to smoothen old scars.
- Easy to use:
 - Thin and comfortable,
 - Can be used on various parts of the body
- No need for extra fixation,
- Can be cut to shape and water resistant.

HOW DOES IT WORK?

The occlusive properties of **Askina® Scar Repair** enhance good skin and scar tissue hydration. This in turn positively influences the remodeling process beneath the skin surface and prevents the formation of excessive scar tissue. ⁽⁶⁾

Askina® Scar Repair is indicated for the treatment of existing hypertrophic and keloid scars and also for the prevention of pathological scars in a closed post-surgical wound ⁽⁶⁾

INDICATIONS:

- Post - surgical closed wounds
- Post - cesarean section wounds
- Wounds after minimally invasive surgery
- Burns after epithelization

ADVANTAGES

- Maintains the optimum level of skin hydration
- Treats both new and old hypertrophic and keloid scars
